Dear Disciple of Christ,

Here is the bible that you ordered through our ministry. I want to let you know that there are so many people out here who have pulled together and made sacrifices to put this valuable tool into your hands. We want you to know that we do not only love you with words, but also with actions. You see, real love costs something, and this ministry has a lot of costs involved. Whether it is time or money there are so many people that have contributed to this task.

Even more important than these are the prayers that are being said for you and for your increasing success and release from prison. We want you out here to be a fruitful and productive member in the body of Christ. We want you to be with the ones that you love and for prison to be nothing more than a memory in your lives.

I was right where you are, in prison, and I understand what you are going through and know how hard it can be when you feel all alone. Now I want you to know that you are not alone, that there are many people out here who have been made aware of your lives and have joined with me in my desire to see you grow in the grace and knowledge of our Lord and Savior Jesus Christ.

We will continue to provide you with catalogs to order bibles and bible resources from and each one will have a different selection so you may be able to build a library for yourself. It is so important that we are able to defend our beliefs and provide every man an answer for this faith and hope that we now share in.

We are also working on our Newsletter and will be accepting poems, artwork, and articles from you to put in it. These articles will be reviewed and placed into the Newsletter as space permits.

Please be steadfast in your faith and cling to the rock that is Christ, craving pure spiritual milk and loving one another. Do you part in letting others know that this ministry exists. Thank you for your patience and please pass the news to others that we are working and have not forgotten them.

Love your brother in Christ,

Stephen Anthony Fortmann
